INTERNSHIPS AND PROFESSIONAL TRAINING

PROFESSIONAL TRAINING

TNS INDIA FOUNDATION –C2TC PROGRAM

www.technoserve.org

Full Stack Web Developer

- Training in Core and advanced Java, Hibernate, and MERN.

Bengaluru
May 2022 – till date

TNS INDIA FOUNDATION

www.technoserve.org

- VMware vSphere 6.7 and Cloud fundamentals

Bengaluru
Nov 2021 - Jan 2022

INTERNSHIPS

Gusto valley Technovation

www.gustovalley.in

IOT Full Stack Intern

- Key responsibilities include working on a project that involves concepts such as IoT, Machine Learning, Web Development, and Android Programming.

Bengaluru
May 2021 - Jun 2021

EDUCATION

Dr. Ambedkar Institute of Technology

Bachelor of Engineering (CSE)

Bengaluru
Aug 2018 – Aug 2022
7.95

PROJECTS

AI-Based Smart Examination Proctoring System

A CNN and YOLO-powered platform that prevents students from malpractice during online examinations.

- Front end was implemented using Python 3.6, Flask and React JS, Sphere API Engine (Coding compiler)
- Back end is realized using MySQL Database, XAMPP, YOLO, and CNN Algorithm.

Aug 2021- Jul 2022

Traffic Sign Recognition System

It uses a CNN algorithm to recognize the picture of traffic signs.

- The Front end was realized using Tkinter.
- The Back end consists of trained CNN.

Mar 2021 - June 2021

Crime Management System

It uses MySQL to store crime data like date and place of crime, station details, and other information.

- The Backend is realized using MySQL database and SQL

Dec 2020– Jan 2021

KLE's S Nijalingappa College Rajajinagar Bengaluru

PUC

Physics, Chemistry, Biology, Mathematics

Bengaluru
May -2018
81.16

Sarvodaya High School Shorapur

SSLC

Subjects, Specializations and Achievements/Awards

Achievements

- Taluk Level Quiz competitor

Shorapur
May-2016
78.72

TECHNICAL SKILLS

Programming Languages: C, Java, Python, SQL, HTML.

Packages & Operating Environment familiarity: Windows, Linux, MySQL, VMWare.
